Japan Fashion Week Organization

In carrying out this season's Rakuten Fashion Week TOKYO

The Japan Fashion Week Organization (hereinafter indicated as JFWO), will be hosting a fashion week equipped with a variety of menus, as the only platform in Japan for brands, not only Japanese, but all brands centering around Asia with the potential to step out into the world and be globally active.

Participation in the fashion week can in either physical or digital presentation form, whichever the participant prefers.

A presentation schedule will be planned for all collection presentations during the term, to be widely transmitted both nationally and internationally through the fashion week Official WEB site, and Official YouTube channel. (In case of physical presentations, live transmission also available). Furthermore, to increase the possibility of participating brands' collections being seen by as many people as possible, collections will be transmitted not only in the fashion week Official WEB site, but also in the Official WEB site of our main sponsor, Rakuten, along with sites of fashion week Official media partners, etc.

Also, in an effort to create opportunities for participating brands to help invigorate the event together with us, we will be actively collaborating with other events, not only within the fashion industry, but also with events of other industries.

For details, please refer to the pages on "efforts in strengthening our power of transmission as a fashion week", in this guideline.

We hope you will take this opportunity to consider participating in Rakuten Fashion Week TOKYO.

Strengthening of power to transmit _contents

With the aim of operating and transmitting a more “Tokyo-like” fashion week amid these times of ‘with corona’, at Rakuten Fashion Week TOKYO, we are carrying out various efforts. As one of such efforts, to approach groups that are difficult to reach through regular collection presentations alone, we utilize digital platforms more conscious of BtoC, which we will continue to carry out.

Specifically, we have launched the “DIGITAL VOICE” project from 2021 S/S, a project in which fashionistas and models representative of both Japan and overseas directly introduce brands which caught their eye, attention grabbing points of new collections in recommendation form (including a supplementary sound channel / collection commentary, etc.), along with the new “MY RUNWAY” project of the 2023 A/W season, targeted towards brands giving physical presentations, in which a real world view of shows seen through the eyes of a street photographer and high fashion sensitivity influencers, etc. are introduced. Such projects have been carried out initiatively to raise the level of acknowledgement of both Rakuten Fashion Week TOKYO and participating brands.

Aiming to create the shape of a new fashion week befitting a Tokyo that continuously evolves with the times, in the 2023 A/W season also, we are planning to carry out a variety of projects, so we ask that you please consider participating in such projects, along with your participation in collection presentations.

※ Because contents of projects will differ depending on season, specifics on projects for this season will be notified to participating brands later.
